# Partner with the future in AST...Now!

**NexPloit**

World's First AI Powered Interactive Application Security Testing Solution

## What is NexPloit?

Delivering an easy to sell solution with immediate operational and cost savings to clients, NexPloit is at the forefront of the AST market, completely replacing the need for a security expert's critical thinking with its proprietary Artificial Intelligence engine. Using state of the art Machine Learning techniques to generate and perform real new attacks, NexPloit's ability to detect known and unknown vulnerabilities, single-point failures and complex logical-flow problems is revolutionising the industry!

Unlike current AST solutions, NexPloit's immediate vulnerability reports with remediation guidelines and no false positives make it the solution of choice for Partners, CISOs, CTOs and developers.

**PARTNER WITH NEURALEGION TO EXCEED CLIENT EXPECTATIONS, OFFER THE BEST AND MAXIMISE PROFITABILITY!**
